Cutting For Half Square Triangles

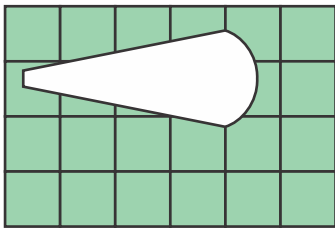

1) Place your half square triangles on the cutting mat to see what size strip you need to cut. In this case, a 2" half square triangle will take a 3" strip.

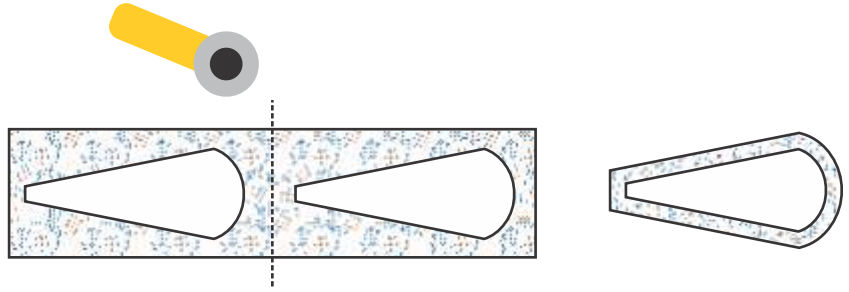

2) Place your half square triangles on the cut strip and allow 1/4" to 1/2" from the top and bottom of the piece.

3) Use the 45 degree angle and the straight edge on your ruler for the half square triangles and sub cut the strips into half square triangle shapes.

Cutting For Dresdens

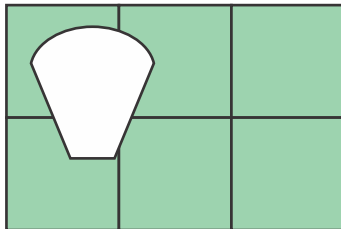

1) Place your large dresdens on the cutting mat to see what size strip you need to cut. In this case, a large dresden petal will take a 2-1/2" strip.

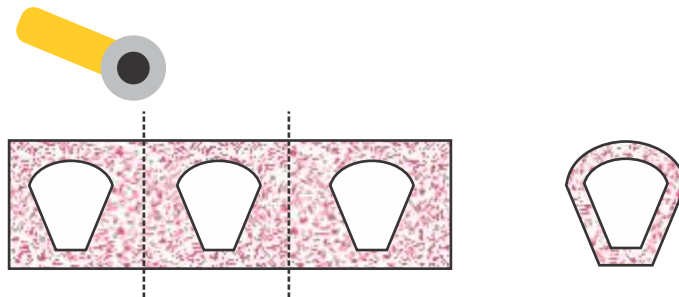

2) Place your dresdens on the cut strip and allow 1/4" to 1/2" from the top and bottom of the piece.

3) Use the straight edge on your ruler and sub cut the strips into 2-1/2" x 5" rectangle.

4) If you are worried there is too much fabric to fold over, cut at least a 1/4" seam allowance around the paper piece.

1) Place your miniature dresden on the cutting mat to see what size strip you need to cut. In this case, a miniature dresden petal will take a 1-1/2" strip.

2) Place your dresdens on the cut strip and allow 1/4" to 1/2" from the top and bottom of the piece.

3) Use the straight edge on your ruler and sub cut the strips into 2-1/2" x 5" rectangle.

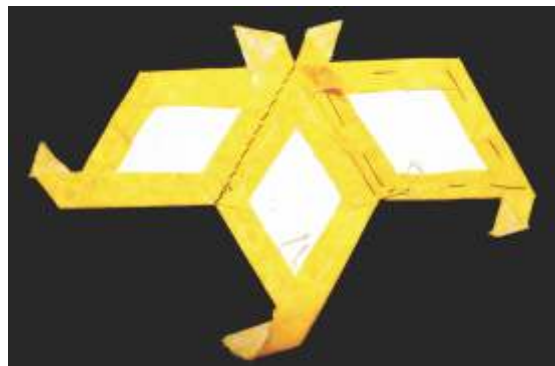

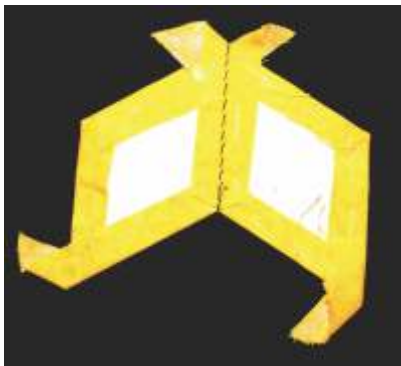

4) If you are worried there is too much fabric to fold over, cut at least a 1/4" seam allowance around the paper piece.

Whip Stitching Straight Edges

After you have a number of pieces basted you can start whipping them together. With a matching thread, bury the knot between the paper piece and the seam allowance. If sewing a dark and light colored piece together, match the thread to the darker color.

Take two anchoring stitches when starting and whip stitch until you reach the next corner. Do not sew through the paper when joining the pieces. Your needle should slide next to the paper between the edge of the paper piece and the fabric, just catching the edge of the fabric.

We recommend about 6-10 stitches per inch. When you reach the “corner”, secure it by taking two stitches together. If your whip stitches are showing on the right side of the fabric, tighten the stitch slightly and catch less fabric. The stitching should be taut and even, but not pulling. Continue whipping pieces together to finish the block.

Removing the Papers

You can remove the papers once a piece is surrounded on all sides. Carefully pull the basting threads and remove the papers from the back side. These papers can be used again.

For the outer edges, press carefully while the papers are still in. This will help the fabric keep the shape of the paper piece. Once all of the edges are pressed, gently pull out the basting stitches and remove the papers from the back side keeping the shape with the seam allowance folded under. It is a good idea to run a basting stitch along the edge to keep the seam allowance folded under.

Assembly Instructions

1) Baste the fabric to the Paper Pieces according to the basic instructions.

Hint for Pointed Pieces: When basting the half square triangles, do not finish the points. Fold the seam allowance along one side and baste to the point. At the point, fold the opposite seam allowance over and baste it down. Leave the excess seam allowance at the end point sticking out. When sewing the pieces together, hold these small “tails” out of the way and stitch according to the instructions.

2) Sew the following pieces together (Fig. 1 - 26):
