## How to make up Scandi 2462 R and S Placemat and Runner Panels

	Quantity	Backing with Binding	Backing - Pillowcase Method
2462/R	one panel (60cms / 24")	1m	70 cms
2462/S	one panel (60cms / 24")	1m	70 cms
60 x 120cm batting and co-ordinating thread			
<b>Optional</b> Iron-on (Hot fix) crystals (4mm and/or 6mm)			

### Method A Traditional (with binding)

- Cut backing to match width of panel (60cm x 114cm). From remainder cut 11 binding strips, each 1½" wide.
- Lay backing down wrong side up on a flat surface.
- Place batting over and smooth any wrinkles.
- Lay panel on top face up.
- Use your favourite basting method - pinning, tacking (you will need to tack the individual pieces) or spray basting.
- Cut between the pieces to separate them.  
NOTE. You may prefer to quilt the individual pieces while still in one large piece and trim back to ¼" seam allowance afterwards.
- Quilt each piece using your favourite method either by hand or machine.
- Trim the three layers leaving a ¼" seam allowance around each piece.
- Bind using your favourite method.

### Method B Pillowcase (no binding)

- Lay the batting down on a flat surface and smooth out wrinkles.
- Lay backing face up on top of batting.
- Place panel face down on the backing fabric. Panel and backing are face to face.
- Pin to secure layers ready to sew along the edge of the designs on each piece.  
**NOTE.** You may wish to cut the pieces apart and work with smaller pieces rather than the whole panel layered up in one piece.
- Carefully sew along the outer edge of each piece - leaving an opening on one side of each piece. Back stitch start and end of each bit of stitching.
- Very carefully trim away the batting in the seam allowance area of each piece.
- Trim the panel and backing fabric to leave a ¼" seam allowance all around each piece.
- Trim the corners carefully, then turn right side out.
- Gently ease corners out with a fat knitting needle.
- Slipstitch the openings closed.
- Gently press, then pin or tack the layers together.
- Quilt using your favourite method by hand or machine.

### *Optional crystals*

Add as much bling as you like or opt for a more subtle sprinkling to add glamour and Christmas sparkle
